SKILLS

Programming & Development: C#, JavaScript, Python, Java, HTML, CSS

Frameworks/Tools: .NET, xUnit, Entity FrameWork, MySQL, ElasticSearch,

Cloud & DevOps: Google Cloud Platform, CI/CD, Docker, Github,Git, Bash, Linux

Software & Project Management: Project Management, Smartsheets, Risk Assessment,

EDUCATION

Western Governors University May. '25 | *Bachelor of Science in Computer Science*

EXPERIENCE

C1: ConvergeOne   Mar. '23 — Present
Associate Project Manager

- Led technical upgrade of a children's hospital call center, coordinating with clinical staff and IT teams to ensure seamless transition and business uptime. We also performed disaster recovery (DR) failover testing to their newly implemented DR site for critical communications.
- Deployed and configured cloud infrastructure on Google Cloud Platform (GCP), including Elasticsearch as a Docker service, to support internal systems and high-availability requirements..
- Managed 25+ technical projects ranging from $7K to $250K, collaborating with cross-functional teams to achieve 95% customer satisfaction..
- Improved risk assessment accuracy by 25% through Smartsheets adoption, reducing cost overruns and enhancing project control

Renova Solar   Mar. '22 — Mar. '23
Junior Software Developer

- Developed a **Chrome extension** (JavaScript, Chrome API) to automate Salesforce refreshes, increasing workflow efficiency by 30%.
- Built [accessibility features](#) (JavaScript, HTML, CSS) to meet WCAG 2.1 standards, improving usability for visually impaired users,and raised our accessibility score from 86 to 90.
- Enhanced map-based search with PHP and Sass, boosting user engagement by 25%

Projects

[Patient Task Tracker](#) (C#/.NET,xUnit, Entity Framework, SQL,)
- Designed and implemented a modular CLI application for managing patients and tasks using repository and manager patterns.
- Built robust CRUD functionality, validation, and error handling for patient and task records.
- Developed comprehensive xUnit tests for all core operations to ensure reliability and maintainability.
- Currently implementing Entity Framework for SQL database storage to enable scalable production-ready data management.

[Salesforce Refresh Extension](#) (JavaScript, Chrome API, HTML, CSS)
- Developed a Chrome extension using JavaScript and Chrome APIs to automate Salesforce page refreshes
- Improved workflow efficiency by 30% through automation and local caching.

Certifications

ITIL 4 Foundation Certification

• IT Service Management framework, focusing on aligning IT services with business needs

Linux Professional Institute (LPI) Essentials Certification

• Foundational knowledge of Linux systems, including command-line operations and system administration
